SUMMARY

- My career background is primarily in operations at the Founder and Partner level for a socially conscious start-up.
- I decided to make the transition to Web Development while completing technical coursework in an MBA program.

TECHNICAL SKILLS

- Programming Languages: Javascript, Java, HTML, CSS
- Frameworks & Libraries: AngularJS, jQuery, Bootstrap
- Backend Knowledge: NodeJS, ExpressJS, MongoDB
- Platform Experience: Salesforce, Wordpress, Squarespace, Xero Accounting, Slack.

PROJECTS:

- Website Portfolio: SPA using jQuery.
- TwitchTV API App: Angular designed app to create custom user lists.
- Local Weather App: Geo-location app using Openweathermap API.

PROFESSIONAL EXPERIENCE

2014-2015 (1 year) Operations Lead / Partner, **White Whale Mixers LLC, Remote**

- Joined 1.5 year-old start-up as partner to lead growth strategy in trending market.
- Manage entire supply chain with third party vendors, logistics and national wholesalers.

2007-2014 (7 years) Operations Team Lead, **One Village Coffee, Souderton PA**

- Member of founding business team - managed growth & operations to \$1M+ in sales.
- Budget, P/L, payroll and cash flow responsibility.
- Oversee purchasing & negotiations with equipment and material vendors.
- Created & improved supply chain processes that reduced operating costs by 20%.
- Cost & pricing analysis for Futures Contracts, increased profit margin by 10%.
- Primary Lead for B Corp, Organic and Fair Trade certifications.
